

# INTERPLANETARY RISK & CONTACT PREPAREDNESS PROTOCOL

---

Version 0.1 – Issued by Konkrite Capital Corporation

Office of Cosmic Affairs – Internal Classification: C-11-AEON

---

## I. Core Principles

- **Planetary Continuity:** All assets under Konkrite management will remain operational, secure, and compliant with local laws unless directly impacted by verified extraterrestrial activity.
- **Non-Panic Mandate:** Staff are instructed to maintain full operational discipline. Emotional, social, or speculative responses are to be deferred to designated response teams.
- **Sovereignty & Property Rights:** Earth remains sovereign. Landowners retain rights. Konkrite will advocate for our clients’ holdings even in uncertain interplanetary legal contexts.
- **Cosmological Non-Discrimination:** Any intelligent life form - carbon-based or otherwise -seeking peaceful interaction will be treated with professional respect. This includes potential negotiation for shared use of land, facilities, or airspace.
- **Confidential Client Briefings:** In the event of major contact, verified or leaked, Konkrite will issue tiered client updates based on relevance and severity.

## II. Contact Scenarios & Konkrite Response

Scenario	Response
Sudden appearance of spacecraft	Continue asset management. Notify emergency team. No comment to media.
Global disclosure by UN/NASA	Activate Phase 2 protocol. Review asset security. Initiate legal impact analysis.
Direct approach by extraterrestrial being/entity	Notify designated COSMIC-3 unit. Document calmly. Do not offer real estate without consent.

### **III. Who We Are**

Conkrite Capital Corporation is a multi-national asset and facility management firm with operations across Earth. As of 2025, we maintain contingency plans for climate, conflict, financial collapse, and now, cosmic visitation.

This document is not legally binding.
